Welcome!

At Morgan & French, we create individual, beautiful and thoughtful pieces of personalised memorial jewellery, crafted with love and care by our talented team of designers and jewellers from our Bedfordshire Studio.

Back in our early days in 2006, our founder and creative director designed and crafted every piece of memorial jewellery from her home studio. Since then, our innovative business has blossomed, we have opened a shop in Stamford, and our studio is a beautiful old Victorian Fire Station in Biggleswade, Bedfordshire.

Our studio overflows with energy as we work to the percussive beat of jeweller's

hammers, shaping designs with our precision tools that become pieces of jewellery to be treasured forever.

Together we create jewellery personalised with the fingerprints, footprints, ashes or handwriting of a loved one, for wonderfully sentimental heirloom pieces that celebrate the life and love of someone dear to your heart.

Fingerprint Jewellery

Our signature Fingerprint Jewellery collection has beautiful pieces of jewellery that carry the unique touch of your loved ones with you, wherever you go.

We began making fingerprint jewellery 15 years ago when we were taking the fingerprints of children and parents artisan markets and we still take fingerprints today in our Stamford shop. We have also developed an excellent kit for you

to take your prints at home and post them to us.

Our Fingerprint Jewellery collection includes beautiful rings, necklaces, bracelets and cufflinks. Each can also be inscribed with names, dates and loving messages.

Fingerprint Rings

There is a fantastic amount of history and symbolism behind our love of rings today. The Egyptians believed rings were a symbol of eternity, with no beginning or end, and the open space in the middle a gateway to a new chapter.

It was Egyptian tradition to give your love a ring to represent your devotion and a ring with your fingerprint symbolises one-of-a-

kind devotion that only you can give.

Fingerprint rings are available in 9ct or 18ct, rose gold or yellow gold, or sterling silver. Each ring can be personalised on the inside with your chosen words.

Ten Tiny Toes

The very first piece of footprint jewellery was crafted by our Founder, Lisa Morgan, for a very close friend over 14 years ago. The keepsake was held so tightly for comfort and so deeply cherished by the two parents that hand and footprint jewellery simply had to be shared. A few months later, the Ten Tiny Toes collection was born.

Ten Tiny Toes jewellery takes the precious little hand or footprints of a loved one and casts

them forever in solid silver for you to keep close to your heart every day.

We're dedicated to creating faithful small-scale reproductions of the little hands and feet that mean the world to you.

Our Ten Tiny Toes Hand & Footprint charms can be kept as keepsakes and attached to bracelets and necklaces. We also make beautiful silver cufflinks.

Handwritten Words

Capturing a loved one's handwritten words in solid silver is a truly wonderful way to treasure heartfelt messages forever. We can make a lovely keepsake from something which could otherwise be lost or hidden away in a drawer. Many of us will have a Birthday or Anniversary Card, which we've kept for sentimental reasons, and we can use words in them to create a truly unique piece of jewellery to wear every day.

Below we have a stunning silver ingot pendant, and opposite, a beautiful ring featuring loved ones cherished handwritten words from a paper note.

The writing must be clear and defined for us to recreate it in silver.

We can also engrave your loved ones words onto the inside or outside of sterling silver or gold rings.

Artwork Jewellery

Is there anything more likely to bring a smile to your face than a child's funny, innocent little drawing of something they love? Or one of Grandpas' silly little doodles?

Your Little Picasso will be created in high-quality sterling silver by our talented silversmiths. They create unique Little Picasso cufflinks, necklaces and bracelet charms that are indeed one-of-a-kind for you to treasure forever.

little picassos

Our Little Picasso collection was designed to faithfully capture a miniaturised version of a loved one's innocent doodles as a piece of high-quality jewellery, made bespoke for you. It could be the lovable, wonky drawing of mummy or daddy or grandpa's sketch of a pet – our Little Picasso collection means you can wear your loved one's masterpieces as a one-of-a-kind piece of jewellery.

We'll design your Little Picasso to complement the shape of the artwork that you provide. Simple, single line, pencil or felt pen doodles on white paper work best.

Please note - painted, coloured-in pictures or scenes that have more than one element, such as a person standing next to a car (two elements here) aren't suitable for recreating into one charm. We'd recommend two charms or a pair of cufflinks, each with one element, or picking one element to focus on.

Ashes in Silver Jewellery

When someone you love passes away, finding a way to keep their spirit with you at all times can bring comfort and peace. Our collection of memorial ashes jewellery enables you to keep their memory and spirit close to you always.

We take a small amount of your loved ones treasured ashes and delicately forge a silver pendant that embodies the fine ashes visibly within the precious metal itself.

Made in our Biggleswade studio, your ashes pendant will be handcrafted with great care and respect into a beautiful, organic solid silver drop pendant or tactile silver pebble.

Our memorial jewellery makes a thoughtful gift for yourself or family members. It is the perfect way of keeping your loved one with you so that you can carry the spirit, essence and memory of them with you always, wherever you go.

Secret Chamber Jewellery

Secret Chamber jewellery is a beautiful way to keep the spirit of a loved one with you every day, always nearby to touch and remember. Each piece of jewellery in our Secret Chamber collection has a chamber that holds a small amount of your loved one's ashes.

For our range of Secret Chamber rings, the chamber is delicately sealed with either a 9ct gold or solid silver heart, depending on your preference.

You may prefer to wear your loved one's ashes closer to your heart. In which case you will adore our Secret Chamber charms that can be worn on a necklace chain or bracelet.

These charms have a chamber sealed with a small silver door and a tiny engraved lock, making a thoughtful treasured gift for when memories with a loved one become even more precious.

How to order

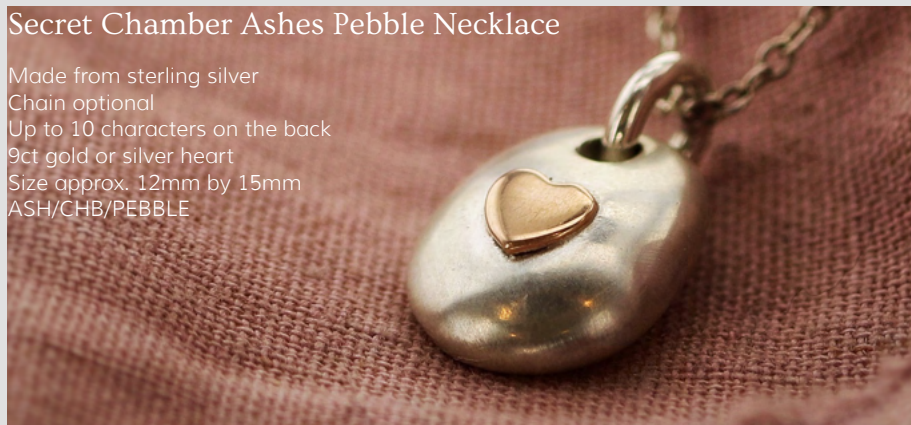

If you prefer not to take impressions yourself, many hospices, care homes or funeral directors are happy to handle the whole process, from order to delivery, on your behalf. They will take your order, collect your payment, take the impressions (if needed), & take delivery of the finished jewellery.

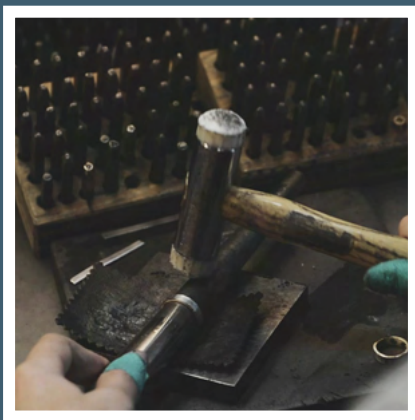

Please let them know the details of the design you would like by giving them the product code shown on the images and the personalisation you would like (up to the maximum allowed, remember that spaces always count as characters) and they will handle everything for you.

If you have any questions, please call our studio on 01767 348 188 (Mon-Thu) or send an email to hello@morganandfrench.com and we will happily help you and answer any queries you may have.
